I am an innovative and result-oriented software engineer with adept experience, fast learning ability, quick problem-resolution skills, highly adaptivity, and a wonderful team player. My proficiency runs deep into web application development including building Api backend with node.js: typescript, Javascript and express framework and Api front-end UI and components with react with React and Angular.

EXPERIENCE

I-gate, Nigeria— *Front-end Engineer*

December 2022 - Date

- Create manage and maintain front-end components and reusable components with angular 11+
- Consumes Api for front-end application development
- Optimize codes for front-end components
- Adept use of Git and GitHub for version control in web Application Development
- Adept knowledge of relational databases: Mysql, Postgres, sqlite3, and Nosql database: Mongo DB.
- Frequently used docker to containerized web Applications

Decagon, Nigeria— *Software Engineer*

August 2021 - 2023

- Adept in carrying-out Unit tests and integration test using jest
- Engage in a team project that developed a shopper Ecommerce web Application and ilearn application using react and Node.js.
- Created and optimized front-end components using react
- Deployed web application on Heroku and Netlify
- Adept use of Git and GitHub for version control in web Application Development
- Create and manage both relational databases: Mysql, Postgres, sqlite3 and Nosql database: Mongo db.
- Frequently used docker to containerized web Applications

Freelance, Fiverr, Upwork— *technical writer/researcher*

MAY 2019 - JULY 2021

- Developed simple front-end components for web applications using react
- Developed 4 thesis and 2 undergraduate projects for international and local clients during this period.
- Developed 2 conference Papers and 2 seminar papers during this period.
- Analyze data, carry out sentimental analysis and trends for data analysis

TECHNOLOGIES

- React
- Angular
- Rxjs
- React Toolkits
- Html 5
- CSS 3
- Tailwind CSS
- Firebase
- Typescript
- JavaScript
- Swagger
- Bootstrap
- Node js
- Express js
- Docker
- Mongo DB
- Sqlite3
- Postgres
- Postman
- CI/CD: github Actions
- MySQL

Abumorako and Sons oil and Gas Nigeria Limited Nigeria, Edo —
General Manager

NOVEMBER 2016 - APRIL 2019

- Implemented scrum methodologies in the workplace.
- Plan, organize and supervise daily and weekly work activities

- Jest
- Agile Methodologies
- Git
- GitHub

PROJECTS PORTFOLIO

i-learn App

A team project built to facilitate and enable students to meet and access tutors remotely while tutors earn their pay.

Technologies Used - Node.js, Angular, Netlify,

Link: **https://ilearn-sq012-node.netlify.app/**

Git-Hub Link: https://github.com/decadevs/node-live-project-backend-sq012-ilearn

Restaurants Hub App

It is an application that has many stores of your favorite restaurants.

Technologies Used - Node.js, React, Netlify,

Link: **https://foodorderring.netlify.app/**

Git-Hub Link: https://github.com/don-briski/food-App

Edo First Aid App

Winner in the health category section of Edo Tech Innovated.

Technologies Used - Figma,
